Barack Obama Collaborative Poster Mural Project

Teacher Instructions:

Let's create a stunning collaborative art project that will bring vibrancy to your classroom walls and hallways! Follow these steps to bring your masterpiece to life:

1-Print the pages on high-quality paper or card stock for durability and a professional finish.

2-Trim off any excess edges to ensure a clean and polished look for each piece.

3-Assign each student a specific page to complete using their preferred art medium. They can choose from a single art medium, such as crayons, colored pencils, markers, paint, or pastels, or even experiment with a combination of different mediums for added texture and visual interest.

4-Refer to the page numbers and the project overview (provided below) to guide students in assembling their individual pieces to create the final collaborative artwork.

Project Overview:

Our collaborative artwork will come together as a cohesive piece, showcasing the unique contributions of each student. Each page represents a vital element of our theme, and together they will form a captivating visual representation of our collective creativity and talent.

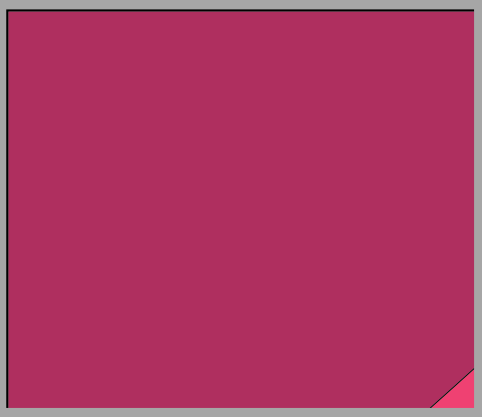

Encourage students to express their artistic flair while keeping in mind the overall theme or concept of the artwork. Remind them to consider color harmony, composition, and the use of various art techniques to make their individual piece stand out while complementing the others.

Once all the pieces are complete, carefully arrange and assemble them according to the provided page numbers. Consider the layout and placement to ensure a visually striking display. You may choose to mount the artwork on a large poster board or directly on the wall using adhesive strips or other preferred methods.

Celebrate the collaborative effort and artistic achievements of your students by showcasing this show-stopping artwork in your classroom or hallway. It will not only add beauty to your learning environment but also serve as a reminder of the creative potential that blooms when we work together.

Enjoy the process and encourage students to take pride in their contributions to this extraordinary piece of art!

COLORING GUIDE

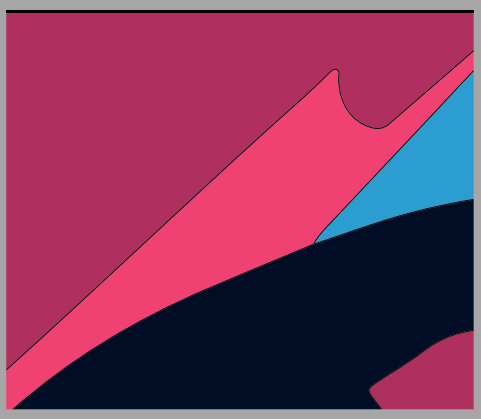

1-USE THE COLORING GUIDE TO COLOR THE IMAGE BELOW.

1

2-Trim off any excess edges to ensure a clean and polished look for each piece.
